Deployable Solutions

24" CISCO Mobile Station

The SENTRY 24" Cisco Mobile Station redefines portability and efficiency in mission-critical scenarios. Housed in a rugged case, this all-in-one workstation features a 24" LCD monitor, providing instantaneous setup for an array of applications, from video conferencing to drone monitoring. Despite its lightweight design less than 20 kg, it offers robust capabilities and can be swiftly deployed in tactical command center or any other operational setting.
