

# Software For The Design Of Walk-In Coldstores

## MANUFACTURERS VERSION

A bespoke package aimed at manufacturers of walk-in coolers, freezers, coldrooms and refrigerated warehouses.

With over 30 years experience in the foodservice manufacturing industry, our personnel are well aware of the pitfalls and requirements associated with specifying, manufacturing and constructing coldstores.

∨  
A fully custom package tailored to the specific product offering and manufacturing business requirements of your company.

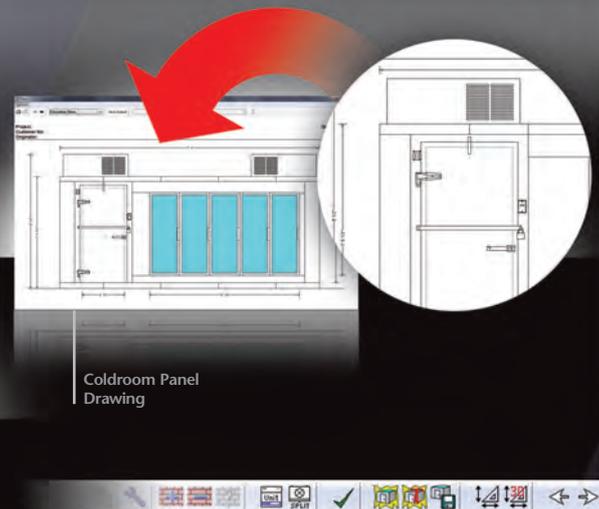

Setting the industry standard for the way coldstores are quoted for, designed and sold.

3D Drawing of multiple room with brick walls

3D Coldroom Drawing

Coldroom Panel Drawing

### Manufacturer Version Outputs All bespoke to your requirements

- > Generate proposal with drawing
- > Produce sale price on proposal
- > Generate panel arrangements
- > Generate installation drawings
- > Generate panel packing list
- > Generate manufacturing outputs

### Increase turnover without increasing your overheads
