

## Company Overview

# BlueVoyant®

Founded in 2017 with a mission to solve some of the most pressing cybersecurity challenges facing clients, BlueVoyant combines internal and external cyber defense capabilities into an outcomes-based cloud-native platform by continuously monitoring your network, endpoints, attack surface, and supply chain, as well as the clear, deep, and dark web for threats. The full-spectrum cyber defense platform illuminates, validates, and quickly remediates threats to protect your enterprise. BlueVoyant leverages both machine-learning-driven automation and human-led expertise to deliver industry-leading cybersecurity to more than 900 clients across the globe.

## What is BlueVoyant?

BlueVoyant is a cyber defense platform company combining internal and external security to defend organizations against sophisticated attackers and advanced threats. We deliver purpose-built cybersecurity services that proactively defend business ecosystems of all sizes against today's threats by utilizing large, real-time datasets with industry-leading analytics, and technologies. Our threat intelligence data detects your most potent cybersecurity risks, while intuitive automations mitigate threats against your attack surface effectively and efficiently, providing the business and technical outcomes you need to both stay secure and to support your business objectives.

## How We Help

We converge internal and external cybersecurity capabilities into a single, unified platform, and our world-class cyber experts provide a full range of services with industry-best data and process automation. They also help you assess and improve your security posture, which includes responding to and remediating incidents. Additionally, BlueVoyant provides diversified and robust solutions catered to your cyber defense requirements.

## What We Do

### Supply Chain Defense

These services provide comprehensive cyber risk mitigation for your extended ecosystem and give you clear oversight by proactively identifying, prioritizing, and remediating risks within your supply chain and investment network.

- External Risk Assessment
- Supplier Questionnaire
- Emerging Vulnerability Identification
- Cyber Risk Mitigation

## Key facts

Built to combine the best in cyber defense resources from the public and private sectors, BlueVoyant incorporates:

### Service Delivery Talent

Extensive front-line experience responding to advanced cyber threats.

### Best of Breed

Our award-winning services utilize large real-time datasets with industry-leading analytics and technologies.

### Following the Sun

Our security analysts around the world keep our Risk Operations Center (ROC) and Security Operations Center (SOC) running, 24x7.

### Global Footprint

Headquartered in New York, BlueVoyant serves more than 900 clients globally, with personnel located in North America, Latin America, Europe, Asia, and Australia.

### Managed Detection & Response

Cyber attacks never stop. Neither do we. Get protected quickly and benefit from the always-on security coverage you need in today's dangerous, highly interconnected world. Our robust portfolio of MDR solutions will ensure you meet your unique business needs.

- MDR for Microsoft
- MDR for Splunk
- MDR for Endpoint

### Digital Risk Protection

BlueVoyant offers an end-to-end DRP solution to detect and eliminate cyber threats before they impact your business and clients. We help you gain real-time visibility of digital threats by continuously monitoring domains and websites, social media, apps in official and unofficial stores, the clear, deep and dark web, instant messaging and open source — allowing for quick, effective cyber threat mitigation.

- Digital Brand Protection
- Fraud Campaigns Discovery
- Account Takeover Monitoring
- Data Leakage Detection
- Executive Cyber Guard
- External Attack Surface Analysis

### Professional Services

World-class cybersecurity experts help assess and improve security posture, and respond to and remediate incidents.

- Digital Forensics and Incident Response
- Incident Preparedness
- Penetration Testing and Vulnerability Analysis
- VISIBL: Vulnerability Identification Services
- Governance, Risk, and Compliance
- Dark Web Investigations
- Security Maturity & Readiness Programs

**“BlueVoyant’s Supply Chain Defense provides our portfolio companies with additional protection through outside-in continuous monitoring. Its service helps identify, prioritize, and remediate critical risks and vulnerabilities, and support our portfolio companies in reinforcing their cybersecurity posture.”**

-BC PARTNERS
