

#### Complete service provision

Altrimex Packaging Solutions offers customised packaging installations for liquids, piece goods and hardware, powders and tablets. Innovative and efficient solutions that get optimum returns from your packaging lines.

Altrimex tackles your packaging problem thoroughly and expertly. From advice, engineering, project supervision, delivery and installation to training your operators and optimising your lines. Of course, if required, you can also use our helpdesk facilities, breakdown service and our central spare parts warehouse.

**Linear automatic filling machine**

## Flowing filling

Altrimex offers a wide range of liquid filling and packaging solutions, suitable for volumes from 5 ml up to and including 1000 litres. Semi-automatic up to fully automatic filling and capping systems for every desired speed. Our systems are used by multinational corporations as well as smaller companies in the food, (petro) chemical, pharmaceutical, and cosmetics industries.

A solution is conceivable for every liquid and packaging. Whether it involves thin or highly viscous liquids, products with or without particles, electrically or non-electrically conductive and aggressive or potentially explosive products.

Based on your specifications, we offer you the best solution.

**From unscrambling up to end-of-line packing, we offer the total solution**

Unscrambling

Filling

Capping

Labelling

Induction sealing
