

# The complete IT asset & license management platform

A screenshot of the Setyl dashboard interface. The interface is divided into a left sidebar, a top header, and a main content area. The sidebar contains a navigation menu with items like Home, Reports, Organization, Surveys, Finance, People, Assets, Apps, Invoices & Documents, and Support Tickets. The top header shows the Setyl logo, a search bar, and a user greeting "Hello Ramesh" with a profile icon. The main content area displays several key metrics: Total 12m Spend (£2,761,168), 330 People, 1,242 Assets, and 258 Apps. Below these are sections for "My Surveys" (Asset Survey), "People Onboarding" (4 people), "People Offboarding" (12 people), and "License Renewals" (14 renewals). Each section lists specific items with their status and a "View" link.

# Setyl: The complete IT asset & license management platform

Setyl is a cloud-based IT management platform, which seamlessly integrates into your existing IT landscape.

The platform gives you complete visibility and control over your IT — including assets, software applications, licenses, users, admins, vendors, spend and beyond.

With its intuitive interface and low learning curve, Setyl offers a user-friendly experience and facilitates collaboration across your organization.

# Core platform features

## Hardware asset management

Gain complete visibility and control over your organization's hardware assets and equipment.

## Software asset management

Map all your SaaS subscriptions, software licenses and service agreements, including costs and renewals.

## People management

Effectively manage the allocation of IT assets, licenses and roles to employees from onboarding to offboarding.

## IT spend management

Get a full understanding of what is driving IT spend, and identify opportunities for cost savings.

## Compliance and IT safeguarding

Mitigate security and compliance risks, and breeze through your ISO 27001, SOC 2 and more audits.

## Integrations

Connect Setyl to your existing tech stack with our growing number of out-of-the-box integrations.

## Customer reviews

### Ebury

"What I love about Setyl is the ease with which it allows the team to manage thousands of devices and assets across our global estate.

"The oversight we now have has been a real eye-opener and has improved our daily operations."

**Darrone Vaughan**  
Director of IT Services at Ebury

### Banked :

"It's been fantastic to gain this visibility over all our IT assets, SaaS applications and people in one place.

"I now have peace of mind knowing that the information is readily available whenever needed, including for compliance and audit purposes."

**Jamal Issouquaein**  
IT Engineer at Banked

"Setyl has changed the way that we work as a business.

"It's given us a platform to start looking forward instead of fighting fires. It's involved in every single process. It's our master inventory for all assets nationwide."

**Alistair Ward**  
Head of Asset Management at Verisure

# Why Setyl? Core benefits

Gain full visibility and control over your IT assets, licenses, usage and spend in one centralized platform.

# Gain full visibility over your IT in one place

Create a source of truth for your organization by managing all your IT in one unified, centralized platform.

- ✓ Unlimited hardware assets, software applications and licenses
- ✓ All-in-one solution, combining hardware assets, software assets, users, spend, compliance and more
- ✓ Extensive range of integrations, including MDM, SSO, IAM, IDP, accounting, HR, helpdesk and more systems

"Setyl has changed the way that we work as a business.

"It's given us a platform to start looking forward instead of fighting fires. It's involved in every single process. It's our master inventory for all assets nationwide."

**Alistair Ward**

Head of Asset Management at Verisure

# Streamline and scale your IT operations

Alleviate the complexity of running IT within your organization, even as you scale.

- ✓ Comprehensive asset inventory and lifecycle management
- ✓ Software asset mapping and license renewal tracking
- ✓ Employee onboarding and offboarding workflows
- ✓ Actionable insights and automations

## Ebury

"What I love about Setyl is the ease with which it allows the team to manage thousands of devices and assets across our global estate.

"The oversight we now have has been a real eye-opener and has improved our daily operations and overall service to our end users."

**Darrone Vaughan**  
Director of IT Services at Ebury

# Eliminate wasted IT spend

Achieve measurable savings and optimize your budget.

- ✓ License spend and renewal management
- ✓ Effective IT equipment tracking and recovery, including during offboarding
- ✓ Software and asset usage audits and shadow IT detection
- ✓ Granular IT spend reporting

## Banked :

"Using Setyl for SaaS management has been transformational.

"Within two months of setting up the data in Setyl, we were able to reduce our SaaS spend by over 25%."

**Jamal Issouquaein**  
IT Engineer at Banked

# Safeguard against audit and compliance risks

Navigate your ISO 27001, SOC 2, Cyber Essentials and other audits with ease, and minimize compliance risks.

- ✓ Comprehensive information asset register
- ✓ Rigorous vendor due diligence, audits and workflows
- ✓ Detection of shadow IT
- ✓ Itemized audit logs and compliant archiving workflows

**teamwork.com**

"My auditor was blown away when he saw what we are doing with Setyl."

"It's been a phenomenal tool for internal due diligence and I use it as my show and tell for my leadership team."

**Steven Rose**  
IT & Security Lead at Teamwork

# Collaborate across the organization

Manage all information in a single, shared system that's easy to use for all stakeholders across the organization.

- ✓ Clear and intuitive interface with minimal learning curve
- ✓ Easy-to-navigate features and functionalities
- ✓ Dedicated roles and permissions to maintain control
- ✓ One source of truth to store and update all information across the organization

"There was very little learning curve. [...] I can give access to Setyl to my managers and to people in different departments, and they can do the work for me."

**Pawel Tomal**  
IT Lead at Camphill Communities of Ireland

# Get up and running quickly

Enjoy a speedy and straightforward implementation.

- ✓ Out-of-the-box integrations with your existing tech stack
- ✓ User-friendly interface and intuitive features with minimal learning curve
- ✓ Free, fully supported proof of concept

**GEMBA**  
—ADVANTAGE—

"I was also really impressed with the implementation process: the team was responsive and the onboarding was really slick."

**Gemba Advantage**

# Comprehensive asset and license inventory

Gain complete visibility over what assets, software applications and licenses you have, who has them, and where they are — in one centralized register.

Import data automatically through integrations, and enrich your data with contextual information such as pricing, peripheral devices, documentation, warranty details, vendor audits, and more.

# Asset lifecycle management

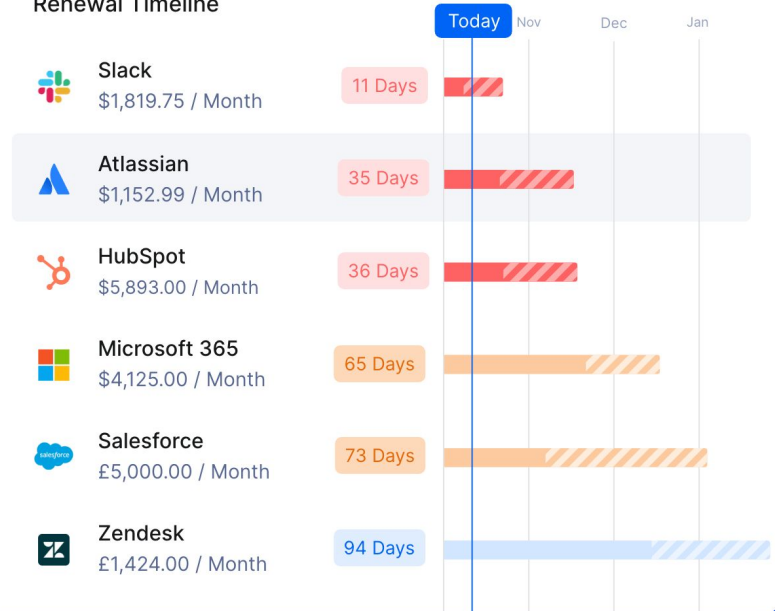

Track assets from purchase to disposal, store relevant receipts, warranties and other documents, and set customizable reminders for day-to-day management.

The screenshot displays the Setyl interface for managing a Lenovo ThinkPad asset. The header shows the asset name 'Lenovo ThinkPad' and a menu icon. The main content area lists four events in a vertical timeline, each with a date, an icon, and a description of the action taken.

Date	Action	Details
17 Jul 2021	Added	Microsoft Intune added Lenovo ThinkPad Assigned to: [User] Department: Marketing
17 Jul 2021	Updated	Ramesh Landay updated Lenovo ThinkPad Document uploaded: Receipt
24 Feb 2023	Updated	Isabella Chen updated Lenovo ThinkPad Assigned to: [User] → [User] Department: Marketing → Finance
02 Aug 2024	Archived	Isabella Chen archived Lenovo ThinkPad Unassigned: [User] Status: Certified Destroyed Document uploaded: Certificate of Destruction.pdf

## Renewal Timeline

# Complete application management

Map your SaaS subscriptions, software licenses and service agreements, monitor spend and renewals, keep a record of application administrators, and complete vendor due diligence with ease.

# Employee onboarding and offboarding

Effectively onboard new hires, and eliminate wasted IT spend by retrieving assets from leavers. Integrate your HR system to automatically trigger onboarding and offboarding workflows as join or leave dates are recorded.

The screenshot shows the Setyl interface for an employee's offboarding process. At the top, the employee's name 'Monica Jesusia' is displayed next to a profile picture. Below the name, there are two status indicators: 'Offboarding' (with a red square icon) and 'Leaves: 25 Oct 2024' (in a red box). A three-dot menu icon is visible in the top right corner of the header.

The main content area is divided into sections. The first section is titled 'Remove Assets 2' with an upward arrow. It contains a table with two columns: 'Asset' and 'Status'. The table lists two assets:

Asset	Status
 <b>Lenovo ThinkPad</b> G6JFDH 3457576UAERDGR TJ	 For Collection  Unassign
 <b>Jabra Evolve 40</b> 58JFN4 258HGJDXC0076	 For Collection  Unassign

Below the assets section, there are two more sections: 'Remove Licenses 5' with a downward arrow, and 'Remove Admin Roles 1' with a downward arrow.

# Advanced features

For more complex requirements, Setyl also offers:

- Automatic warranty finder
- Custom reporting and functionality
- SLA uptime guarantee
- Sandbox account
- SAML 2.0 support
- Custom integrations and API access
- Managed service

# Out-of-the-box integrations

Connect Setyl to your existing tech stack with our growing number of out-of-the-box integrations.

# Integrations into your tech stack

Seamlessly import information to speed up implementation and turn Setyl into your source of truth.

## Google Workspace and Microsoft 365

Import foundational company and IT information with a connection to Google or Microsoft.

## HR packages

Import organization structure and employee information, including join and leave dates.

## MDM and RMM systems

Discover and import assets, together with their specifications, assignees and installed software.

## Accounting packages

Map actual IT transactions against Setyl spend data, and flag discrepancies.

## SSO, IAM and IDP systems

Detect software applications and licenses, as well as employee and organization structure.

## Ticketing desks

Connect Setyl assets, people, software applications and more records to your support tickets.
