

Before

For dogs, a slippery floor is like walking on ice. Excessive strain on your dog's joints can seriously worsen joint pain — and even cause sudden, dangerous accidents.

Reliable Mats for Safer, Happier Pets.

Boost trust and satisfaction with mats designed for injury prevention and stress relief.

Non-Slip mat!

Safe and secure—claws won't get snagged easily

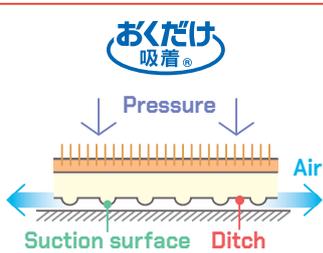

After

Reduces floor slipperiness and helps ease stress on your dog's joints and legs.

High performance and user-friendly for both pets and people

Anti-Skid Backing

Why it adheres?

There are numerous invisible suction pores on the bottom surface. The air in those pores will escape when pressure is applied from above and a state of vacuum forms, creating countless suction cups that stick firmly to the floor. Moving around on top of them will not make them skid.
