PLX[®] HTX-1[™] REFLEX SIGHT

THE NEW STANDARD OF **AMERICAN** **MADE OPTICS**

INTRODUCING THE PLX HTX-1™

Made in America, the PLX® HTX-1 is a revolutionary enclosed-emitter reflex sight that sets a new standard for American optics. The HTX-1 solves many of the largest problems with current reflex sights, such as incompatible mounting footprints, optic height, and durability under shock.

PLX® **HTX-1**™

THE NEW STANDARD OF **AMERICAN MADE OPTICS**

MODULAR CHASSIS SYSTEM

The PLx HTX-1™ features a patent pending modular chassis-based mounting system that is compatible with almost all existing optics cut pistols. Unlike adapter plates, the modular chassis system is an integral part of the optic itself, providing a true centerline and stronger mounting connection.

CO-WITNESS WITH STANDARD SIGHTS

The PLx HTX-1™ has the lowest centerline of any enclosed pistol reflex and co-witnesses with standard-height iron sights. This allows the HTX-1 to fit with a much broader selection of holsters and reduces the risk of snagging. It also greatly reduces height-over-bore.

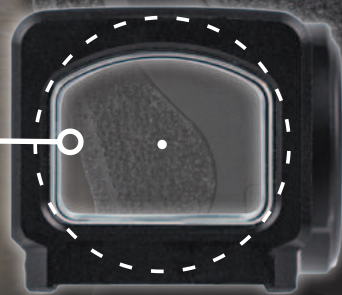

PLX® HTX-1™

THE NEW STANDARD OF **AMERICAN MADE OPTICS**

BEST-IN-CLASS TECHNOLOGY

Optically, the PLX HTX-1™ is a technology and materials leader. It features a ruggedized narrow-band glass doublet with a wide-band anti-reflective coating, resulting in a crystal-clear sight picture. It also has our proprietary AutoLive® illumination technology and ACSS® Vulcan® Dot reticle (for a 4 MOA Dot Reticle).

PLx HTX-1™ SPECS

LENGTH	1.78 IN.
WEIGHT	1.74 OZ.
APERTURE DIAMETER	19.5X15.2 MM
EYE RELIEF	UNLIMITED
MOUNTING OPTIONS	RMR A & B, MOS
ILLUMINATION SETTINGS	11 (3 NV)
ILLUMINATION	RED
ELEVATION ADJUSTMENT	120 MOA
WINDAGE ADJUSTMENT	120 MOA
CLICK VALUE	1 MOA
BATTERY TYPE	3v CR 2032
FINISH	HARDCOAT ANODIZED
WARRANTY	LIFETIME WARRANTY

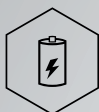

BATTERY
COMPARTMENT

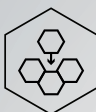

HARD COAT
ANODIZED (BLACK)

FEATURES

AUTOLIVE®
