Scan a pet to identify The Petnow app does the job.

✕ The concept is simple

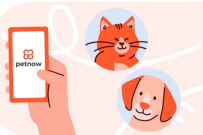

**Scan, register & identify
your pet just by scanning
its nose or face.**

Unique identifiers exist
on the faces of dogs and cats

Simple scans on mobile
phones can distinguish them

It just works without
microchips, tags, and collars

Why Petnow now?

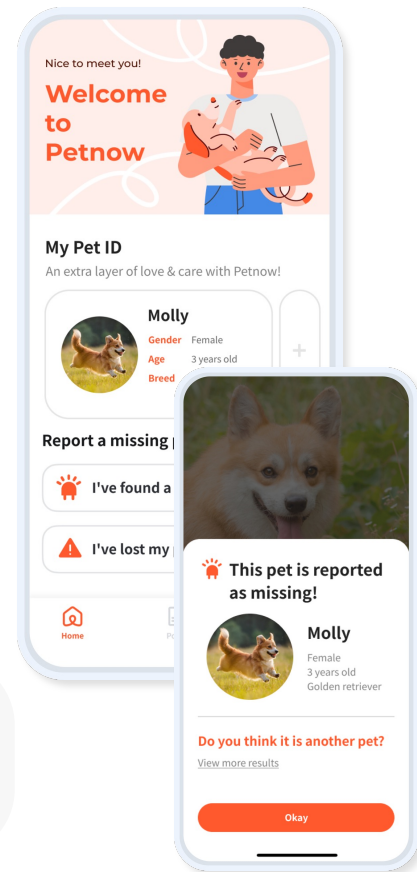

Prevent accidents associated
with identification that can
seriously damage the reputation
of your valuable business.

Alleviate being clueless
about your furry customers
even in occasions of collars/tags
are detached.

Drive growth of your business
by attracting targeted audiences
with ID-driven affiliation programs.

Petnow is going BIG The revolutionary pet identification is just few taps away.

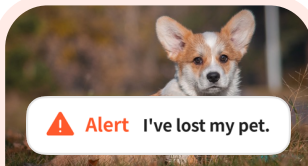

✕ The Petnow app is

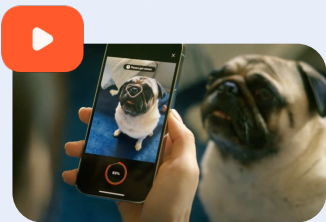

Straightforward
to use without
scanners.

The world's first
to identify
dogs and cats.

Launched
'Pet Amber Alert'
in Korea.
