Cutlery Rolling machine	4 Machine
Shearing machines	2 Machines
Hydrolic	4 Machines

Capacity Maintenance

STEP 1- It takes around 8-10 days to get the raw materials delivered to us. The process starts there after.

STEP 2 - For Blank cutting it takes 4-5 days, we maintain the cuttings in all sizes at all times.

STEP 3 & 4 - For pressing, stamping, cutting, tooling and budding it takes 15-20 days.

STEP 5 & 6 - For buffing/polishing it takes 7-10 days.

STEP 7 & 8 - For packaging, marking and labelling it takes 8-10 days.

STEP 9 - The final processed goods are dispatched accordingly. Thus, the whole process starting from step 1 to Step 9 takes around 42-55 days.

Note : Any kind of delays are always avoided as we maintain buffer time internally. But in any unfortunate circumstances the delays are timely informed to the client to avoid any confusions in the later stage.
