

# All-in-One Quality Control for Error-Free Printing

Ensure brand credibility by automating the approval of print and packaging files along your entire workflow with GlobalVision's Quality Control Platform.

## We've Helped Leading Print and Packaging Companies Overcome the Following Challenges

Too much **time spent**  
proofing between  
revision cycles

Too many **print defects** slipping  
through the cracks

Difficulty keeping track  
of **version changes**  
and communication  
between departments

**Inconsistencies** between  
final printed components  
and customer approved  
artwork

**Deviations** between printing  
plates and the corresponding  
approved file

**High travel costs**  
to get customer  
approval
