

SMARTWIN

About Us

Jiangsu Smartwin Electronic Technology Co., Ltd. (hereinafter referred to as Smartwin Technology), located in Jurong Economic Development Zone, adjacent to Nanjing, Jiangsu Province, east China, was founded in 1997. The registered capital is 72.58 million CNY. Smartwin specializes in the research, development, production and marketing of various passive LCD displays and display modules. Since its establishment for more than 20 years, the displays produced by the company have been widely used in industrial control equipment, automotive instruments, household appliances, medical devices and other information display terminals, providing our customers domestic and abroad with excellent products and meticulous services, and winning the praise and trust of high-quality users domestic and abroad. The number of employees is about 1,700 by the end of 2022. In January 2022, after years of unremitting efforts by the company's leaders and all employees, the company's shares were successfully listed on the Shenzhen Stock Exchange's Growth Enterprise Market (code: 301106).

Smartwin Technology will take this as a development opportunity to give full play to its advantages in technology, talent, marketing and other aspects, promotion management and technological innovation, and to provide better products and more satisfactory services for global customers in the high-speed development of the 21st century.
