Taurine	(mín.)	1.300 mg/k	0,13%
Methionine	(mín.)	5.000 mg/kg	0,50%
Urinary pH	-	-	6,2 - 6,8
Metabolizable Energy	(mín.)	-	3.600 kcal/kg

#### **BASIC QUALITATIVE COMPOSITION:**

Salmon flour, poultry offal flour, corn gluten bran 60<sup>1</sup>, rice grits, brown rice bran, corn grain<sup>1</sup>, soybean bran<sup>2</sup>, sugar cane dry yeast, linseed grain, oil poultry, yucca extract (min. 0.03%), sodium chloride, choline chloride, vitamins (A, D3, E, K3, B1, B2, B6, B12, C), nicotinic acid (B3), calcium pantothenate (B5), folic acid (B9), biotin (B7), iron sulfate, copper sulfate, manganese monoxide, zinc oxide, calcium iodate, sodium selenite, calcium propionate, bentonite, DL-methionine, L-lysine, taurine, swine liver hydrolysate, acidity regulating additive, antioxidants (BHA and BHT). POSSIBLE SUBSTITUTES: Sorghum grain, beef meat and bone meal, swine meat and bone meal, dry brewer's yeast, defatted rice bran, corn gluten meal 21<sup>1</sup>, potassium chloride, manganese sulfate, zinc sulfate, poultry liver hydrolysate. Gene-donor species: *Agrobacterium tumefaciens*<sup>1,2</sup>, *Streptomyces viridochromogenes*<sup>1,2</sup>, *Bacillus thuringiensis*<sup>1,2</sup>, *Zea mays*<sup>1,2</sup>, *Stenotrophomonas maltophilia*<sup>1,2</sup>, *Sphingobium herbicidorovans*<sup>1</sup>, *Dicossoma* sp.<sup>1</sup>, *Diabrotica virgifera*<sup>1</sup>, *Thermococcales* spp<sup>1</sup>, *Bacillus subtilis*<sup>1</sup>, *E. coli*<sup>1</sup>, *Brevibacillus laterosporus*<sup>1</sup>, *Diabrotica virgifera*<sup>1</sup>, *Arabidopsis thaliana*<sup>2</sup>, *Delftia acidovorans*<sup>2</sup>, *Pseudomonas fluorescens*<sup>2</sup>, *Stenotrophomonas maltophilia* strain DI-6<sup>2</sup>, B.T. var Azawa e Kurstaqui<sup>2</sup>, *Agrobacterium* sp.<sup>2</sup>, *Glicine max*<sup>2</sup>, *Bacillus thuringiensis* subsp Kumamotoensis<sup>2</sup>, *Helianthus annuus*<sup>2</sup>, *Streptomyces hygrosopicus*<sup>2</sup>.
