

THE HISTORY

Vega Holster s.r.l. was founded in 1993 by Toschi Lio, the current administrator of the company, Follati Giovanna and Toschi Francesco.

The company has grown steadily over the years, first asserting itself on the Italian market and then successfully venturing on to the European and international market. The company now holds a prominent position among the industry leaders, exporting its products worldwide. Not only are Vega Holster products used by Italian law enforcement, such as Arma dei Carabinieri and State Police, but they are also used by the Greek, Venezuelan, Dutch, Saudi Arabia, French, Portugal, Spanish and other police and Law enforcement Department around the world. Vega Holster products are also used by the Italian Army and many other international armies involved in delicate and high-risk military missions.

Vega Holster collaborates, designs and develops lines of innovative and functional products for other companies among which important weapon industries (Beretta, H&K, Walther Group and many others), optical instruments, knives producers etc.

Vega Holster products have been used recently in various TV series and famous film productions like James Bond.

PROJECT AND DEVELOPMENT

Vega Holster focuses on the realization and development of items intended for military and police use. The target that links the activity of the technicians to professionals is that of sharing experiences and collecting feedback to create new products and to develop solutions capable of enhancing the performance and comfort of the already existing products.

DELIVERY

Vega Holster is aware of the importance of on time delivery. Whether the order is for many or just a few units, production and warehouse organization allow compliance with the agreed delivery dates, even in case of urgent orders.

CUSTOMERS SUPPORT

Thanks to a team of competent and diligent professionals, Vega Holster offers its customers support service during all stages of the order: **from design up to delivery.**
