About Bellylabs

Bellylabs is a pet health company developing science-backed diagnostics and supplements for dogs, designed to support health, fertility, and wellbeing at home. Bellylabs is best known for creating the world's first at-home pregnancy test for dogs, trusted by breeders globally. Now we are expanding beyond breeders.

New design 2026

Available now

01

Prenatal care

Products that support dog fertility and the mating planning.

02

Pregnancy and birth

Products that detect dog pregnancy and aid during birth.

03

Vitality

Products that support the overall health of all dogs and help in recovering from illnesses.

The Home Diagnostics

The world's first at-home pregnancy test for dogs—simple, reliable, and made for dog owners. Bellylabs enables early pregnancy detection without the need for clinic visits, meeting growing demand for convenient at-home diagnostics. A differentiated product that drives interest and adds value to your assortment.

Pregnancy test

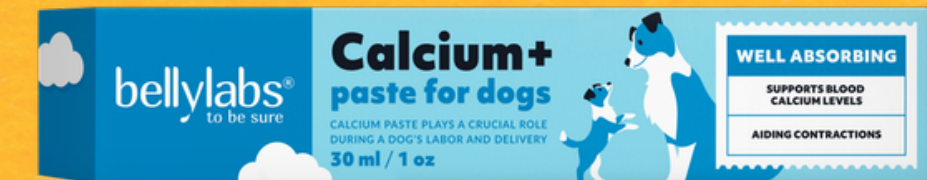

- World's first at-home dog pregnancy lateral flow test
- Early pregnancy confirmation
- Proven breeder demand
- Easy to do at home and read the results
- Manufactured in Finland

The Supplements

At Interzoo, Bellylabs presents its growing range of targeted supplements for dogs, introducing products that address clear gaps in the European market. Designed with veterinarians and breeders, these supplements bring meaningful innovation and differentiation to existing assortments.

New product to
European market

Calcium+ paste 30 ml

Calcium supplement helps a female dog during birth by strengthening uterine contractions, making labor more efficient and can help prevent eclampsia.

Revive paste 30 ml

Promoting puppy vitality and aiding weak and fading puppies to get stronger. Works also for lactating bithes and recovering dogs needing added energy.

New and
powerful!

Vitamin E oil 100ml

Strengthens the immune system by reducing oxidative stress and promoting recovery during illness or periods of high demand. Excellent for yeast infection and itch relief.

Pre + Pro 60 capsules

A blend of prebiotics and probiotics that supports healthy digestion by promoting beneficial gut bacteria. This helps improve nutrient absorption, boost immunity, and maintain overall well-being in dogs.

Antioxidant Oil 250ml

An oil supplement enriched with antioxidants supports a dog's overall health by promoting a healthy coat, reducing inflammation, and boosting immune function.
